

## HAIR EXTENSION METHODS

### TAPE EXTENSIONS

Tape extensions are applied to the hair by sandwiching the natural hair between two pieces of the tapes. The tapes are then pressed together using a specialist application tool.

### MICRO RING EXTENSIONS

Micro Ring extensions are attached to the hair strand by strand, using small copper micro rings and clamped to the hair for maximum comfort (no heat, no glue).

## WHY CHOOSE CURLY VISION HAIR?

Our Curly Vision Hair Extensions are made using 100% premium quality, virgin remy human hair. This means the cuticles remain intact and facing the same direction from root to tip and ensures the hair maintains natural shine and strength!

Our hair also comes with an ethical supply chain leaving you conscious free. Expertly hand-crafted at our workshop, we ensure all of our suppliers provide fair pay and working conditions. We've also the added reassurance of providing sustainable packaging which is sourced from sustainable forestry and made from recyclable materials.

Our goal was not only to bring a premium hair extensions brand to the market, but one that is ethically and responsibly sourced.
