PROGRAMME

Welcome

At CVH our brand ethos is to ensure that we are providing not only premium quality hair extensions, but hair that's sourced ethically and responsibly.

With this, we're on a mission to transform hair all over the world, offering women the safest and most innovative methods in hair extensions.

We're proud of our ethos and so are our clients, and now we want **YOU**. We are on the hunt for ambitious and enthusiastic extensionists to join the CVH family.

We're looking for people who are passionate about our products and are keen to discover and be part of a new emerging brand.

Our Mission

"Our goal was not only to bring a premium hair extensions brand to the market, but one that's ethically and responsibly sourced."

The CVH Way

Premium Quality

All of our hair extensions are double-drawn, Russian-Mongolian remy human hair. With a 12 month life span, there's no wonder it's loved by clients and professionals from London all the way to Dubai.

Ethically Sourced

Our hair comes with an ethical supply chain leaving you conscious free. Expertly crafted at our workshop, we ensure fair pay and working conditions.

Recyclable Packaging

Our hair comes in 100% biodegradable branded pouches, meaning no plastic wrappers. These can also be re-used by clients. This is also sourced from sustainable forestry and is recyclable.

Our Hair

Our Curly Vision Hair extensions come in 29 unique shades which enable our stylists to offer a comprehensive colour range to clients. CVH Hair is made with multi-tone adapt coloring system, which helps the extensions blend with natural hair seamlessly even if the own hair shade is slightly different.
